Presents

**Taras Shevchenko: 200 Year Celebration—From the Children’s Perspective**

In recognition and celebration of 200 years since Shevchenko’s birth, MPUE engaged 5 Artists to lead an art project that included students from Kindergarten to grade 9 throughout the 12 English-Ukrainian Bilingual Program (EUBP) schools in Manitoba. Students worked under the guidance of the commissioned artists to collaborate and create a child’s interpretation of Taras Shevchenko’s significant contributions to Ukrainian cultural identity. The children’s art work and collective artistic efforts were combined into 6 fabric based art panels that have been formed into a traveling exhibit that has been displayed at many Manitoba venues over the 2014 – 2015 school year. The art exhibit has been enjoyed by thousands of people of many cultural backgrounds, has received media interest and provides the public with an introduction to Taras Shevchenko and his legacy.

MPUE, with support of our sponsors has created a set of 6 greeting cards depicting each of the panels. These cards continue to celebrate Taras Shevchenko’s importance and preserve the EUBP students’ artwork. Funds raised will provide assistance in MPUE’s efforts to promote, expand, and enhance our English-Ukrainian Bilingual Program.

*Thank you to our sponsors for providing support in the creation of these cards and helping the English-Ukrainian Bilingual students.*

Your child is receiving this complimentary card of the art panel created by children at your school, as a thank-you gift for participating in this special project.

**A set of 6 cards depicting all six art panels, are available to purchase for \$5.00**

-----  
Please return completed order form to MPUE with payment (+ \$5.00 shipping per order)
